Eye-sight Catching Matte Finish

Matte finish is widely applied on the coffee packages to make it more attractive and quality visual effect.
We realize quality matte finish for your coffee packages, that will ensure high level product profile.
Watch Video

Quality

Serious Bag-Making

We take serious bag-making craftsmanship to produce the bags, and along with, we take serious QC measures, to realize the bag into great package for customer's products.
Watch Video https://www.youtube.com/watch?v=GFu0eZRo0k0

Nearly free of small hidden lines on surface

Small hidden lines on the bag surface will largely impact the final package effect for coffee products, especially for matte finish bags. Our bags are realized with very few small hidden lines, to realize perfect appearance.
